NAVSEALOGCENDET Portsmouth is dedicated to providing and maintaining past performance quality and delivery information through the use of our PDREP WEB based applications. The PDREP WEB application includes input screens for Contract Awards, Inspection Records, Web PQDR, SDR, and various other records used in PDREP. Also included are user reports on system collected data. Level I/SubSafe is used for verifying Level I material markings prior to shipyard installation. The Supplier Audit Program is process audit results conducted at contractor facilities by both government activities and prime contractors participating. Red/Yellow/Green (RYG) is an application that generates contractors classifications based on their past quality and delivery performances for material and services provided to the Government. Feedback is an application for end-users to submit requests for enhancing and/or modifying any of the PDREP applications. [Request Access now.](#)

[NAVICP Defective Materials Summary \(DMS\)](#)

PDREP is an automated information system designed to track quality and delivery performance on material/services procured by the Navy. Data is collected from all Naval Systems Commands on a daily basis and is maintained in the following records on the database: Contractor CAGE Information, Debarment/Suspension, Contract Delivery Data, DLA Contractor Alert List, GIDEP Alerts, Material Inspection Records, Product Quality Deficiency Reports, Qualified Product List, Special Quality Data, Surveys, and Test Reports. The application offers a wide selection of standard, management, and graphical reports. Also, a powerful Ad-Hoc feature allows users to design their own reports.

PQDR Navigation

PQDR HOME PAGE

Choose a PQDR Link

Create New PQDR	Create a new PQDR record. The user must supply an RCN number
Search for Existing PQDR	Search for a specific record by RCN or Requisition number. If the PQDR is found the system will automatically retrieve the record for viewing/editing. You may also enter partial numbers and then choose from a list of similar RCN numbers.
WORKLIST (Select RCN From List)	View all of the PQDRs that currently require attention for a given user and/or DoDAAC. You may select any PQDR from this list for viewing/editing
Clone PQDR	Create a new PQDR that includes data from an existing PQDR.
EZPQDR WORKLIST	View and Process PQDRs that were initiated by non-PDREP Originators using the EZPQDR system (Globally Accessible Deficiency Report Origination System). This feature is only available for Screening Points that belong to one of the default Navy or Marine activities.

Choose a Search Link

Advanced Search	Locate PQDRs that are no longer on your worklist. Search PQDRs based on Level, Activity, Year, User ID, NIIN, Status, or Control Number.
CDCS Search	Search CDCS records based on Year, Doc Type, Cause Code, NIIN, CAGE, Contract Number, Action Office, CDCS number.
DCMA Search	Search PQDRs based on Year, Fiscal Quarter, Region, Activity.
DFAS Search	Same as Advanced Search but with DFAS data in the result set.
End Item Search	Search PQDRs based on End Item NIIN, Next Higher Assy NIIN, TAM, Type\Model\Series.
MIR PQDR Search	Search MIR records based on Year, MIR Attribute, NIIN, CAGE, SMIC, Contract Number, DoDAAC, JOB Order, Project.
NIIN\Contract Search	Search PQDRs based on NSN related criteria.

Hide Instructions

Instructions:

- 1) Enter a record number (such as an RCN) or a Document Number (Requisition Number). You may enter a partial number and choose from a list.
- 2) Choose the application with which you'd like to associate the 1348 form
- 3) Click the 'Search' button
- 4) If no 1348s exist for the provided record you may click the 'Create 1348 for: xxxxx-xxxxxx' link.
The 1348 Suffix should be identified as 'A' all subsequent partial shipment 1348s should be lettered sequentially. The final 1348 should be identified as 'Z'.
- 5) If a 1348 form exists for the selected record you can either add an additional 1348 by clicking the 'Add additional 1348' link or you can edit an existing 1348 which is identified by suffix.
